

How to interact with the CLDP Listserv

What is a Listserv?

A Listserv is a way to share and archive emails within a community of interest. The CLDP Listserv will include news about the Cyber Leader Development Program, but you may also share articles and thoughts regarding professional development and cyber-related news. Please stay within the boundaries of these topics or your subscription may be considered for cancellation.

Signup

Send an email from your .edu account to LISTSERV@53LIST.ARMY.MIL. No Subject line is necessary. In the body of the email type "SUBscribe CLDPLIST" as depicted below:

The screenshot shows an email composition interface. On the left is a 'Send' button with an envelope icon. To its right are fields for 'To...', 'Cc...', 'Bcc...', and 'Subject'. The 'To...' field contains the text 'LISTSERV@53LIST.ARMY.MIL'. The 'Cc...' and 'Bcc...' fields are empty. The 'Subject' field is also empty. Below these fields is a large text area for the email body, which contains the text 'SUBscribe CLDPLIST'.

You will receive an email from the Listserv stating that "Your command: SUBSCRIBE CLDPLIST Firstname Lastname" has been received. You can simply reply to this email with the letters "OK" in the email body as depicted below. This will forward your signup request to a list moderator.

The screenshot shows an email composition interface for a reply. On the left is a 'Send' button with an envelope icon. To its right are fields for 'To...', 'Cc...', 'Bcc...', and 'Subject'. The 'To...' field contains the text '53LIST.ARMY.MIL LISTSERV Server (16.0) <LISTSERV@53LIST.ARMY.MIL>'. The 'Cc...' and 'Bcc...' fields are empty. The 'Subject' field contains the text 'RE: Command confirmation request (286EDF89)'. Below these fields is a large text area for the email body. The body contains the text 'OK' followed by a vertical line and a dashed line separator. Below the separator is the text '-----Original Message-----' followed by the email header information: 'From: 53LIST.ARMY.MIL LISTSERV Server (16.0) [mailto:LISTSERV@53LIST.ARMY.MIL]', 'Sent: Wednesday, February 17, 2016 3:00 PM', 'To:', and 'Subject: Command confirmation request (286EDF89)'.

Set Preferences with Listserv Commands

Sending the “HELP” command to LISTSERV@53LIST.ARMYMIL will return a list of the most commonly used commands. Alternately sending the “INFO REFCARD” will return a list of all the available commands.

The SET Command provides a number of options in which you can dictate how you receive CLDP Listserv emails. For instance “SET CLDPLIST DIGests” will set your preference to only receive a period digest of CLDPLIST emails. See the table below for some useful SET Commands. You can also request an INFO REFCARD for more options on the SET command and other preferences.

SET CLDPLIST DIGests	Request CLDPLIST digests instead of receiving messages when posted
SET CLDPLIST INDEx	Request message indexes rather than receiving messages when post
SET CLDPLIST NODIGests	Turns off the CLDPLIST digest option
SET CLDPLIST NOINDEx	Turns off the message index option
SET CLDPLIST HTML	Sets preference to prefer HTML email, especially HTML indexes
SET CLDPLIST NOHTML	Turns off preference to prefer HTML email
SET CLDPLIST MIME	Sets preference to receive messages in MIME format
SET CLDPLIST NOMIME	Turns off preference for MIME format
SET CLDPLIST REPro	Sets preference to receive copies of your own postings
SET CLDPLIST NOREPro	Turns off preference to receive copies of your own postings

Removal

Users can leave the CLDP list upon graduation or for other reason by sending the “SIGNOFF CLDPLIST” command to LISTSERV@53LIST.ARMYMIL.
