YG 2025 Application

CNMF and ACI CNOQC Pilot Program

This application serves as the first step in the assessment process developed to find the next generation of cyber operators. It mirrors the process for current active duty Soldiers within ARCYBER to become operators.

During the assessment process, applicants will be provided precise timelines to accomplish tasks and all assessment steps will be scored. Failure to complete the assessment steps within the provided timelines or meet minimum threshold scores will result in the applicant's removal from the process. Removed applicants can choose to re-apply directly to the ARCYBER ODIE program upon successful completion of BOLC.

This screening and selection process is conducted with a single goal in mind, provide the CNMF and ARCYBER with the best possible operator candidates that we believe will be successful in completing the pipeline training and becoming a future Master Operator.

There are a few restrictions that apply to your journey to becoming a world-class operator for the CNMF. The restrictions are listed below for your understanding. If you are willing to face these challenges head on, please continue to apply. Initial the boxes to acknowledge your understanding.

I understand that in accordance with AR 350-100 par 2-6 p thru q, both CNOQC and FORGE have a concurrent service obligation (ADSO) of 3 years upon completion, voluntary termination, or removal from either course. This is concurrent with any existing service obligation.

I understand this training program is to develop cyber operators for the CNMF. Therefore, my first assignment will either be to the 781st or 782nd

I understand this pilot program is only open to personnel that are selected for the Army Cyber branch (i.e. hold a 17 series MOS).

Basic Information

Full Name (First, Middle Initial, Last):

Current university/college:

Location of school (city, state):

Anticipated Degree:

Anticipated Graduation Date:

Contact Information

Primary Email:

Cell:

Secondary Email:

Do you currently have a security clearance?

Yes; my current clearance is a

No

Are you a U.S. Citizen?

Yes

No

Leadership Information

ROTC PMS / USMA BN TAC Officer

Name:

Email:

Phone Number:

ROTC Senior Enlisted / USMA BN TAC NCOIC
